Hard to find books on glass
Source hard to find books on glass

Creative Glassblowing by James Hammesfahr and
Clair Strong
This book describes a variety of basic lampworking
techniques. Some useful info on how to make simple
tools.

Publications you should have in your library:

Safety Books

HEALTH HAZARDS MANUAL FOR ARTISTS by
Michael McCann, PhD, CIH. (1994).
Health Hazards Manual for Artists. 4th ed. Lyons and
Burford, New York, NY. 132 pp.

The Artist's complete Health and Safety Guide by
Monona Rossol
This comprehensive book describes in detail many of
the toxic and hazardous substances that are commonly
found in artist's studios and what you can do to avoid
exposure. Published by Allworth Press ISBN 1-
880559-18-8

Ventilation by Nancy Clark, Thomas Cutter, Jean-Ann
McGrane
A practical guide for artists, craftspeople and others in
the arts. Details what is needed to achieve sufficient
ventilation in your studio so as to minimize you
exposure to bad air. Published by Lyons & Burford
ISBN 0-94130-46-0

Flameworking Books

Contemporary Lampworking: A Practical Guide to
Shaping Glass in the Flame by Bandhu Dunham
The best flameworking book! See above

Glassblowing: An Introduction to Solid and Blown
Glass Sculpturing by Homer Hoyt
Lots of good illustrations. Published by Crafts and
Arts Publishing ISBN 0-9624404-0-x

Scientific Glassblowing by E. L. Wheeler
Aimed primarily at laboratory glassblowers, however
this book has a lot of information that would be useful
to the artistic Flameworker as well

Glass: Philosophy & Method by John Burton
Considered to be the father of lampworking in this
country, John Burton shares his love of glass through

Glass Technology Books

Glass Notes: A reference for the glass artist.
Henry Halem Studios, 429 Carthage Ave., Kent, OH
44240-2303
ISBN 1-885663-00-5
Henry's book mostly focuses on equipment building
with some technical process, A great resource for
anyone wanting to build a hot shop.

A Glassblower's Companion
A compilation of studio equipment designs, essays,
and glassmaking ideas
By Dudley Giberson, Jr.
Available from Joppa Press P.O. Box 202 Warner
N.H. 03278
Ph. 603-456-3569

ADVANCED GLASSWORKING TECHNIQUES
by Edward T. Schmid
The second book by this talented author. Check out
the description above.

Glassblowing by Frank Kulasiewicz
This book must have been one of the first books on
the scene after Harvey Littleton held his first class. The
information is a bit dated but none the less a good
studio book to have as a reference on the shelf. First
published in 1974 by Watson Guptill Publications
ISBN 0-8230-2120-3

Glass Formulation Books

Elements Of Glass and Glass Making by Benjamin F.
Biser reprinted by Roy C. Horner
"A Treatise designed for the practical glassmaker
comprising facts, figures, recipes, and formulas for the
for the manufacture of glass .. plain and colored" This
book was first copyrighted in 1899 and has many
tidbits of useful information for the contemporary
glass artist who wishes to batch their own glass. Out
of print
